

Ghostwriter Project Template

These templates are designed to be examples only. Please modify and create your own version when utilizing these templates. You need to differentiate yourself to make you stand out from all the rest.

After you have hired your ghostwriter, send the instructions below to start your book writing project.

--- EXAMPLE BELOW ---

This project is for a high-quality book that will be featured on Amazon. The book must be proofread, contain proper grammar and spelling and include well-researched information based on the title of the book below. It must be a book that will help people and get positive reviews on Amazon.

Book Title: (insert book title)

Subtitle: (insert subtitle)

Word Count: (insert word count)

Due to Amazon requiring special formatting, I've provided an attached template you can use to write the content of the book in. I've already provided the Introduction and Conclusion, along with additional sections of the book. You will simply need to add in the sections and content of the book that are missing.

Make sure that the formatting, font size, and font style remains consistent throughout the entire book.

Let me know if there are any questions. Thank you!

--- END OF EXAMPLE ---

Notes:

Make sure the title of the book is descriptive about what the book will contain so the ghostwriter knows what to research and write about. You can provide additional information if you want to cover certain topics within the book.

My books are around 10,000 words, then I add in the Introduction and Conclusion myself, along with any other additional sections.

Attach your modified “Book Template” file (see the *Downloads* section) along with your instructions above.

Optional: you can choose to have your ghostwriter sign the “Ghostwriter Agreement” (see the *Downloads* section) before you start the project.
